OUR STORY

Founded in 2005, we are a family-owned, high-end classic car restoration shop, providing expert service in all aspects of auto restoration from bumper to bumper. We are now one of the premier auto restoration shops in western North Carolina, specializing in custom painting, restorations and repairs on cars from yesteryear. Unlike other classic car restoration shops, where customers often have to wait a year for their classic cars to be brought in, Klassic Rides' lead times to receive new business average around 30 to 60 days, with a full restoration averaging around 9 months from start to finish.

Although we are located in western North Carolina, over the years, the demand for our work has expanded our reach to include customers from all across the nation. Today Klassic Rides provides classic auto restoration and custom service to customers from coast to coast. We'll go anywhere people love classic cars as much as we do.

WE'VE HEARD THE STORIES...

Unfulfilled promises, poor craftsmanship, low quality...

One of the things our customers seem to like best about working with Klassic Rides (aside from the results) is how we keep them involved throughout every step of their restoration. Unlike many other North Carolina car restoration shops, Klassic Rides actually gives our customers the ability to follow the status of their restoration by regularly posting pictures of our progress right here on our website. We want our customers to feel like they are as much a part of their auto restoration as they be can be without actually getting paint, oil and grease on their hands.

One of the most rewarding aspects of owning auto restoration shops in NC like Klassic Rides is that we get to work with other people who love classic cars every bit as much as we do.
